

Designed for simplicity.
efficiency.
style.

Introducing Hebel's new Designer Range.

Decorative elements for Hebel facades.

Hebel AAC has grown in popularity in Australia as a building product due to its simple installation and its thermal, acoustic and outstanding fire performance properties. The Designer Range offers two new products, PowerProfile and PowerPattern, so you can get the look you want.

Hebel PowerProfile is a simple way to accessorise your Hebel facade to replicate the look of traditional standing seam, metal cladding systems. Two profiles in three colours are available to customise your home design.

Hebel PowerPattern provides a contemporary option for facades with routed vertical lines into the face of the panel. Manufactured in Australia, these panels provide design flexibility to elevate the look of your facade.

All Hebel's products are suitable for use where non-combustible building materials are required in accordance with Clause C1.9 and Part 3.7.1 of the Building Code of Australia.

Hebel's Designer Range - delivering impressive homes that everyone will love.

DESIGNED FOR

Simplicity

Hebel's simple facade systems are used in conjunction with Hebel's Designer Range, to provide decorative options. Achieve multiple looks using the one, increasingly popular substrate – it's so simple!

Efficiency

Having one substrate that can achieve multiple looks helps reduce onsite complexity. Hebel panels provide for faster installation than other smaller format, traditional masonry products, and require less trades onsite, leading to time savings and cost efficiencies.

Style

Create a range of looks for Hebel AAC with Hebel's Designer Range. High quality panels provide choice with either pre-routed or plain surfaces. Pre-routed panels are ready for a personalised coating, while plain coated panels can be accessorised with a simple profile system that mimics the look of metal standing seam.

PowerProfile®

Hebel's PowerProfile is a simple way to accessorise your Hebel facade to replicate the look of traditional standing seam.

A universal backing clip is fixed to the Hebel facade and a powder coated aluminium profile snaps onto the clip offering a myriad of design options.

Parapet and perimeter trims are also available to complement your design requirements.

Features and benefits:

- + An affordable option compared to that of standing seam and similar metal cladding systems.
- + Strong 75mm thick, steel reinforced panels provide a solid wall with deep window reveals.
- + Helps overcome the issues associated with morning and afternoon glancing light.
- + Choice of aluminium profiles and colours.
- + Maintains strong Hebel thermal and outstanding fire performance.
- + Suitable for timber and steel construction.

Panel sizes (l x w x t):

- + 2400mm x 600mm x 75mm
- + 2700mm x 600mm x 75mm
- + 2850mm x 600mm x 75mm
- + 3000mm x 600mm x 75mm
- + 3300mm x 600mm x 75mm

Profile and accessory colours:

There are two aluminium profiles available; Trapezoidal and Bullnose. These come in a powder coated finish in popular Colorbond® colours: Basalt®, Dune® and Monument®.**

**Other colours are available.

PowerPattern® Track

Hebel's PowerPattern Track collection provides a contemporary option for facades with routed vertical lines into the face of the panel. The "V" groove lines are available in 100mm, 150mm, 200mm or 300mm intervals and as a plain panel with no grooves (bevelled long edges).

Features and benefits:

- + Decorative pattern with all the material benefits of Hebel AAC.
- + Paintable surface finish providing unlimited colour options to design with. Can also be rendered for texture options.
- + Strong 75mm thick, steel reinforced panels provide a solid wall with deep window reveals.
- + Maintains strong Hebel thermal and outstanding fire performance.
- + Suitable for timber or steel frame construction.

Standard panel sizes (l x w x t):

- + 2400mm x 600mm x 75mm
- + 2700mm x 600mm x 75mm
- + 2850mm x 600mm x 75mm
- + 3000mm x 600mm x 75mm
- + 3300mm x 600mm x 75mm

PowerPattern Track routed "V" groove lines are available in: 100mm, 150mm, 200mm and 300mm spacing. Also available as a plain panel with no groove (bevelled long edges).
